In writing your activity plan, please keep in mind the vision and values of Boston Big Local, that this is a resident led 10 year programme to help make the area an even better place to live and that all proposals are considered by the resident partnership group.

AIMS OF ACTIVITY: Provide opportunities to improve residents' health and wellbeing through music, sport and cultural activities for older residents.

People's artistic and imaginative responses can remain strong for years after the onset of dementia. Engagement with the arts re-energises and inspires them, restores self-esteem and fulfils social life in the community. Participation also allows them to access creative skills, and take part in purposeful social activity.

The aim of the project is to utilise the Arts 4 Dementia training that a selection of local freelance artists have recently completed. This would increase the range of activities available for people with dementia and their carers, whilst catering for all age groups, including the increasing numbers of early onset dementia; a relatively younger audience to which other activities may not appeal.

This compliments the NICE guidelines (2006) that suggest that interventions should be tailored to a person's preference, skills and abilities. The more diverse activities that are available the more likely we are in succeeding in this. The guidelines also confirm that such interventions help reduce the non-cognitive side effects of dementia such as depression and anxiety.

Care plans for carers of people with dementia should involve a range of tailored interventions which may consist of peer-support groups with other carers (NICE, 2006). The arts sessions would allow carers to meet other carers facing a similar situation and thus begin to form social support and reduce isolation and loneliness.

A strong alignment therefore exists with Theme 1: Improving Health and Wellbeing.

Improved support for people with dementia and their carers is being addressed as part of the Lincolnshire Health and Wellbeing Strategy, the Boston Strategic Health Framework and Lincolnshire East Clinical Commissioning Groups' outcomes so this project would complement their work highly.

DESCRIPTION OF ACTIVITY (including frequency, location, numbers)

Activity 1

The proposed activity is 10 weekly art sessions for individuals diagnosed with dementia and their carers. The sessions will include a range of art forms such as sketching, felt making, animation and papier mache amongst others. It is hoped that offering a diverse range will appeal to a wider audience and also increase retention rates.

The sessions will last for 2 hours and will be held at Mayfields, Boston; a safe, secure and friendly environment. It is hoped that the sessions would attract in the region of 20 people.

In other areas of the county, following successful pilots, the sessions have continued and become sustainable through participants paying a minimal and very affordable charge for the sessions and/or selling some of their produce.

Activity 2 (Year 2)

Support towards the initiation of an indoor croquet club.

There are already plans in place to set up an outdoor croquet club during the current year. With some support towards equipment costs there is the potential to expand this to include indoor sessions. These would be ideal for the older population as it provides gentle exercise along with social stimulation. Developing indoor sessions means that they are able to run all year round and are not weather dependent thus more consistency and routine, something that is important for the elderly, particularly those with dementia.

The club expect to get around 50 members in the first year.

TIMESCALES

April 2015:	Plan sessions, arrange venue hire, artists and support staff
May 2015 – July 2015:	10 week pilot
August 2015:	Project evaluation
April 2016 – March 2017:	Support the initiation of activity 2

EXPECTED OUTCOMES OF THEME AND PRIORITY:

- Residents are more aware of their health needs and where they can get relevant information.
- Residents take up more opportunities to help improve their health and wellbeing.
- Residents tell us they feel better informed, access facilities and feel healthier.

EXPECTED OUTCOMES OF ACTIVITY (how much activity, how well and what difference)

- Test demand for this provision locally.
- Develop the skills and confidence of a number of local artists to work in this area, improving prospects in this growing health related area of work, and building on the Arts 4 Dementia training
- Make the links necessary to plan sustainable provision in the future
- Positive benefits for dementia patients such as enhanced self esteem, social integration, reduced depression and / or anxiety, reduced barriers to communication and feelings of satisfaction.
- Positive benefits for carers such as reduced isolation, depression and anxiety along with peer support and integration
- Possible reduction in depression, a non-cognitive symptom often associated with dementia
- Opportunities to signpost to other sources of information and existing support groups
- (Activity 2) Weekly indoor sessions running with a club membership of 50 people. Attendance numbers will be recorded by the club and could be reported back to Boston Big local throughout Year 2.
- (Activity 2) Older People and their carers have an opportunity to become more active. Gentle exercise yields various health benefits and has been proven to reduce the incidents of falls amongst this age group.
- (Activity 2) Provides older people and carers with an opportunity to socialise with others within a safe and friendly environment
- (Activity 2) The sessions are an opportunity to inform participants of other gentle exercise sessions locally such as those run by vitality and United in the Community.
- Both activities have the potential to offer volunteering opportunities and those that are interested could develop their skill set by completing relevant training in the fields (i.e. Arts 4 Dementia training or croquet coaching qualifications), this in turn would aid the sustainability of the projects.

MONITORING & REPORTING

Brief quarterly reports advising on progress towards outcomes are required and must be submitted and approved by the partnership before an invoice will be paid. Reports will need to detail how much was done, how well it was done and what difference the activity and funding have made. Evidence can include photographs, video clips, and contribution to local newsletters.

Regular updates will be provided to the Boston Big Local Partnership. Photographic evidence will be collected.

The pilot would be evaluated via attendance records and evaluation forms. Forms will assess delivery to help tailor possible future delivery and will capture the number / range of other services that have been accessed as a result of attending the art sessions. This feedback from the participants will be shared with the BBL panel.

An evaluation report would be produced at the end of the pilot.

Report dates: We would anticipate the evaluation report being completed by August 2015

FEES

The agreed fee is £5,500.00 (incl. VAT) for the period of the agreement - any variation will need agreement. Please quote **CODE 1.4.1/2** on all paperwork, including project reports and invoices.

OTHER FUNDING AND GIFTS IN KIND

Indicate amounts and sources of funding received or applied for relating to this activity and gifts in kind likely to be contributed.

At this stage it is very difficult to estimate precise levels of support, but we anticipate the planned activities might generate added value. A record will be kept of all funding and help in kind received.

For activity 2 the club itself would be the primary funder, covering all other ongoing costs such as venue hire. They will also work to seek additional external funding to support their work.
