Theme 2 –

Creating a more attractive environment

Improve local amenities and open spaces in Boston Big Local area

CODE 2:3:1

£19,000

July to September 2017 – Consultation with the community

CENTRAL PARK

Networking with Boston Hope to enhance the Central Park Play area even further with additional funding from Boston Hope fundraising events

Several meetings have taken place to discuss the swing for the disabled

Flat bed swings

Game panels have been discussed

Quotes have been requested

Play providers are to visit the sites w/c 09/10/2017 and tenders will be sent out.

WOODVILLE ROAD

Consultation with the community took place and it was requested that the surfacing under the swings be replaced immediately and not next year. This will enable the swings to be put back in place and children being able to play on the equipment straight away.

As Fran Taylor had reported that this work would be done until the second year she contacted Richard Tory to ask if this work could be done now. It was agreed that it could.

Quotes for the surfacing obtained and order placed for the work to be done on 28/09/2017. See attached order.

Once the work is completed Fran Taylor will forward invoice for payment.

March 2018

Theme 2 Creating a more attractive environment

Priority 3:1 Improve local amenities and open spaces in Boston Big Local Area

Activity - Continue to improve and increase play opportunities

2:3:1

£19,000

Since last report areas of work:

Woodville Road Play Area – surfacing under swings – complete

Leaving a balance of £16,128

Central Park

Central Park Play Area – Provide an inclusive swing and four flat seats to enhance play for disabled children in a wheelchair and allow them to swing with their siblings.

The first bay of the swing area allows, with the use of a radar key the base to be unlocked, dropped down and the wheelchair to be pushed onto the swing base and locked into position. This can be used by children and adults, bringing a whole new opportunity for the community of Boston.

Alongside this swing will be 4 flat bed swings.

Local Hope – A local group of caring residents came together to help fund the project and have pledged £12,000.

This along with the remaining funding from Boston Big Local will now provide the swing area and also an inclusive roundabout and connecting footpaths to allow central park to become a play area inclusive to all.

After consultation and several visits to the play site by various play providers the contractor for the specialised swing equipment will be G L Jones and the contractor for the Inclusive Roundabout will be Kompan.

Cost of this project is £28,659

Funding from Local Hope towards Swings £12,000

Funding from Boston Big Local towards swings and roundabout £16,128

Funding from BTAC £531

Inclusive Roundabout

This piece of equipment is flush with surfacing for easy access for those in wheelchairs again giving the opportunity for children / adults in wheelchairs to experience a spinning rotation movement along with their families.

It is hoped that this project will start on 16/04/2018.
